## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.
3. Claims 1-3 and 9-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1 and 9, the claimed limitation, "an exclusive-use adapter to adapt a shape of the device", renders the claim indefinite. Which device does the Applicant refer to? It is unclear as to the location arrangement of the first and second card slots (see specification, paragraph, 0023). It is unclear as to the maximum supply current standard required for the adapter and card type device (see specification, paragraph, 0009). The claimed limitation, "is recognized and is not recognized", renders the claim indefinite. Does the Applicant refer to that the adapter is inserted into the first slot of the host device and whether the adapter is recognized or not accordingly or does the Applicant refers to as the control means recognized only the card type device is inserted into the first slot of the host device and wherein the control means recognized that the adapter is inserted into the first slot and that the card type device is insert into the second slot of the adapter. Also, it is unclear as to the predetermined operation

conditions. Are the condition configurations the same or different? Appropriate correction required.
